

Security Management System (SMS) v5.5.4 Threat Protection System (TPS) v5.5.4

October 24, 2022

Trend Micro™ TippingPoint is pleased to announce the release of SMS v5.5.4 and TPS v5.5.4 software. This release provides the following new features and enhancements.

- **Support for SMTPS (Simple Mail Transfer Protocol Secure).** The **Enable SMTPS** option has been added to the **Edit SMTP Server** settings dialog.
- **SMS Client Deprecation (32-Bit).** As previously mentioned (Release Announcement May 3, 2022), the SMS client will no longer support 32-Bit installations.
- **FIPS mode.** SMS High Availability (HA) is now supported while in FIPS mode
- **NIST compliance.** Enabling 2K certificate usage for National Institute of Standards and Technology (NIST) compliance

For a complete list of enhancements and changes, refer to the product [Release Notes](#).
