

TippingPoint Release Announcement

Security Management System (SMS) v5.5.3 Patch 1

August 4, 2022

Trend Micro™ TippingPoint has released Patch 1 for SMS v5.5.3, which addresses the database performance degradation and increased disk space utilization issue introduced in SMS TOS v5.5.3. This patch also includes feature enhancements related to the SMS integration with Trend Micro Vision One™, where customers can see their managed TippingPoint appliances from the Trend Micro Vision One console.

Important Notes:

- All SMS v5.5.3 customers are encouraged to install this patch at the earliest opportunity.
- Patch installation should take approximately 15 minutes.
- The SMS Server will automatically reboot after patch installation. You will then be prompted to update the SMS client.
- For a complete list of enhancements and changes, refer to the product [Release Notes](#).

For questions or technical assistance on any Trend Micro TippingPoint product, contact the Trend Micro TippingPoint [Technical Assistance Center \(TAC\)](#).

Thank you,
Trend Micro™ TippingPoint
