End of Support	The date when all support (hardware and software) will cease.	May 31, 2020

Product Migration Options

For new deployments or for customers looking to replace their SMS hardware appliance, TippingPoint recommends the following SKUs. The new generation of SMS hardware appliances offer higher performance and improved capacity. At the time of this product bulletin, the current SMS products recommended for migration are:

Physical Appliance:

- Security Management System H3 Appliance with 25 Device LTU (TPNN0044)
- Security Management System H3 XL Appliance with 500 Device LTU (TPNN0046)

These new SMS hardware appliances require SMS 4.2.1 and are factory installed with that base version.

Virtual Appliance:

- vSMS for VMware vSphere 1-host SW License (TPNN0152)

Please note, the SMS product offerings that include 225 and 1500 node licensing are not replaced with a single SKU. SMS products can have their device management capacity expanded with the appropriate quantity of the following license:

- SMS additional 20-device System License (TPNN0154)
